I successfully completed on-the-job training on C172 and 152 aircraft, learning the necessary technical and operational skills for successful flight operations. I was able to quickly familiarize myself with the aircraft and its systems, focusing on the details of aircraft pre-flight, in-flight, and post-flight checklists. I practiced flying in accordance with established FAA And DGCA regulations and aircraft manufacturer specifications, honing my skills in navigation, communication, and aircraft handling. Through this training, I demonstrated my competence as a pilot and my ability to safely and confidently operate a C172 and 152 aircraft.
